

- CHOICE magazine's recommended 'Green Buy'
- Are produced using an eco friendly manufacturing process which means a lower eco-footprint
- Are designed and tested by the manufacturer for skin friendliness and have been recommended by the Eczema Association of Australia
- Are made from raw materials that are certified free from harmful chemicals
- Have a biodegradable core with biodegradable starch granules – Bambo Nature nappies are approximately 75% biodegradable as opposed to 35% in standard disposable nappies
- Are 100% chlorine free
- Contain no perfumes or lotions
- Contain no TBT, antioxidants, PVC or latex
- Encompass a full sizing range from premature to training pants
- Are highly absorbent, perfect for using day and overnight
- Packaging is fully recyclable
- Are made in Denmark and shipped to Australia, an environmentally friendly form of mass transporting

Bambo Nature Disposable Nappies are the only disposable nappy in Australia to be awarded the Nordic Swan Eco Label (one of the most comprehensive independently tested eco labels in the world) – **a guarantee of a lower eco footprint.**

The nappies have been designed in conjunction with parents to assure the product has a practical design and are user friendly.

Design features include:

- Resealable, stretchy Velcro-style tabs
- Double leakage barriers with soft elastic which helps keep baby dry
- Super-absorbent core with a unique layer that draws wetness away from baby's skin, keeping baby dry even with repeat wetting
- Extra elastic along the back for better fit and comfort
- Breathable back-sheet allows air to circulate to the skin, reducing moisture content and thereby the risk of skin irritation
